HW and SW Supply

Virtual is a **Duferco Group** company working in the ICT environment. We are a competence center in two main areas: IT Management and Software Solutions.

We project, realize, supply and maintain turn-key IT networks, with particular attention to security and business continuity. Our software team develops highly tailored web solutions, designed around customers' requirements. Our mission is to satisfy our customers' needs, supplying leading edge ICT solutions. We have a large number of references and case-studies, stating our value added consultancy quality.
